I am currently seeking a full-time position from an employer that is going to use my passion, creativity, communication abilities, and wide skill set. Design is not just a job to me, I have been obsessed with the process my whole life.

## **Education & Experience**

### ***2020-2021***

Freelance Design

Worked on creating assets and workflows for streamers. Illustration and branding for individuals and restaurants. Low-level front-end development.

### ***2017-2019***

Interactive Designer

Mindgrub Innovation LLC

Continued to work more independently and communicate more thoroughly with clients. Began to work more on UX auditing. Created high-fidelity interactive prototypes. Changed the design team from using Illustrator/Photoshop for UI designs over to Sketch. Changed the design team from using manually-created developer handoff documents over to using Zeplin/Sympli for communicating design details. This saved weeks of work for each project. I was responsible for running teaching sessions and helping my coworkers learn the new tools.

### ***2013-2017***

Mobile Designer

Mindgrub Innovation LLC

Focused on app design for iOS and Android Apps. Communicating designs to clients. Began working more independently.

### ***2012-2013***

Associate Designer

Mindgrub Innovation LLC

Created UI design for apps and websites. Created marketing materials such as posters, flyers, email templates, infographics, and web banners. Worked closely with developers.

## **Notable Skills**

### *Client Communication*

After a presentation to a client, the VP of Sales and Engagement had a bewildered look on her face and stated: "That was the most awesome presentation I've ever seen, it was like watching a play." I will be proud of that forever.

### *Internal Inspiration*

I constantly seek out new tools and processes to show to coworkers and help move my team forward. I was responsible for pushing my team from Fireworks to Illustrator to Sketch and to Figma.

### *Complex Prototypes*

I love making extremely complex prototypes. There's nothing better for explaining your vision for a project than an interactive prototype. I have used Invision, Framer, Principle, and Figma.
